Re: Tom F. Huth  
KMYC(AM), Marysville, CA  
Facility Identification Number: 40633  
Special Temporary Authority (STA)  
BESTA-20190705AAK

Dear Mr. Huth:

This is in reference to the request filed on July 5, 2019. You requested a further extension of the STA granted on August 21, 2015, to continue ND operation pending the filing of the required FCC Form 302 application due to the Commission's letter dated April 28, 2015, dismissing BZ-20140828AEL.<sup>1</sup> In support of the request, we noted that the application to update all operating parameters was not filed.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of STA IS HEREBY GRANTED, and you may continue to operate ND with a maximum of 1.25 kW day and 0.25 kW night. You must reduce power or cease operations if complaints of interference are received, and use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

This authority expires on **January 25, 2020**.

---

<sup>1</sup> KMYC(AM) is licensed for DA operation on 1410 kHz with 5 kW day and 1 kW night.

Sincerely,

A handwritten signature in blue ink, appearing to be 'J. Szczesny', with a long horizontal flourish extending to the right.

Joseph Szczesny, Engineer  
Audio Division
